## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-70, drawn to a method and apparatus for constructing (prior to display) and presenting web pages, classified in class 707, subclass 530.
  - II. Claims 71-97, drawn to a system and method for transmitting programming through a data stream, classified in class 709, subclass 203.
  - III. Claims 98-108, drawn to a product for facilitating the exchange of data between a transmitter that sends web page requests and a receiver that retrieves and passes on the requested data, classified in class 709, subclass 202.
  - IV. Claims 109-127, drawn to a method for displaying both a web page and an associated program together in a web page presentation system, classified in class 707, subclass 526.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I constructs and presents web pages, invention II transmits a program through a data stream, invention III is a product for use in the exchange of data between a transmitter and a receiver and invention IV has separate utility such as displaying a web page and an associated program together in a presentation system. See MPEP § 806.05(d).

Art Unit: 2178

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Additionally, because these inventions are distinct for the reasons given above and the search required for inventions II-IV is not required for invention I, and likewise with respect to the searches for inventions II-IV, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Mr. John T Kennedy (303-629-3400) on Wednesday, Dec. 4, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jonathan D Stone whose telephone number is (703) 305-7854. The examiner can normally be reached on M-F 9-5:30.
